Welcome to **Infinity Sea**, an exceptional **beachfront one-bedroom apartment in Sveti Vlas, Bulgaria**, situated in **Etara 1 (Етъра 1)**, part of Dinevi Resort, directly above the Black Sea coastline.

Here, the sea is more than a beautiful view. It becomes part of your everyday surroundings – from the first moments of the morning to peaceful evenings on the terrace.
Available for **monthly and seasonal rentals**, Infinity Sea offers the opportunity to make this extraordinary seafront setting part of your life. Spend a summer month by the beach, settle in for a longer winter stay, or simply escape your usual surroundings for a change of scenery, fresh sea air and

Living Above the Sea

Infinity Sea enjoys an outstanding waterfront position, with panoramic views that give the apartment a wonderful sense of space and openness.

The bright, welcoming living room features large windows that bring the sea into the heart of the home. A generous corner sofa bed, dining area, television and fully equipped kitchen create a comfortable setting for relaxing, cooking and spending time together.
From the living room, you step onto the apartment's most remarkable feature – **a covered terrace directly overlooking the open sea**.

The terrace sits above the water, with the coastline below and an uninterrupted horizon ahead. It is the kind of setting that encourages you to slow down and enjoy the moment.
Furnished with a table and comfortable chairs, it feels like an extension of the living room. Enjoy breakfast in the morning light, a leisurely coffee, an evening meal or simply some quiet time watching the changing colours of the Black Sea.

The separate bedroom also enjoys a beautiful sea view. Furnished with a double bed, wardrobe, television and air conditioning, it offers a peaceful retreat with soft, neutral colours and plenty of natural light.
For additional sleeping arrangements, the living room has a spacious sofa bed. An extra bed and a travel cot for a baby can also be provided when required.

A Sandy Beach Just 20 Metres Away

One of the greatest pleasures of staying at Infinity Sea is having the beach almost on your doorstep.
The sandy beach is approximately 20 metres from the building entrance.
There is no need to drive or plan an excursion to reach the water. Simply step outside, and within moments you are on the sand.

The beach has a gently sloping seabed, making it particularly appealing to families with young children. It offers both free beach areas and organised sections with sun loungers and parasols available for hire. A small pier and a nearby fish restaurant serving fresh fish add to the distinctive character of this stretch of coastline.

In summer, the beach becomes a natural part of everyday life – an early swim, an afternoon in the sun or a walk along the shore as the day draws to a close.
Outside the main holiday season, the same coastline offers something equally appealing: quieter surroundings, fresh sea air and the simple pleasure of having the sea so close.

Etara 1 & Etara 2 – Beautiful Surroundings and Shared Facilities

Infinity Sea is located in **Etara 1**, part of the established **Dinevi Resort in Sveti Vlas**, close to the coastline and the well-known Marina Dinevi yacht harbour.
Etara 1 and Etara 2 are characterised by architecture inspired by traditional Bulgarian houses, with terracotta-tiled roofs, natural stone, timber details, attractive terraces and beautifully landscaped gardens.
The combination of distinctive architecture, greenery and proximity to the waterfront creates an inviting environment for both holiday and extended stays.

Guests of Infinity Sea have access to the shared facilities of both Etara 1 and Etara 2.
The facilities include two outdoor swimming pools, a restaurant, landscaped communal areas and other on-site amenities and services. Some facilities operate seasonally, and the availability of individual services may vary throughout the year.

Parking options and any applicable charges must be confirmed in advance, depending on the dates and arrangements for your stay.

Discover Sveti Vlas and the Bulgarian Black Sea Coast

Sveti Vlas occupies a particularly attractive position on Bulgaria's Black Sea coast, between the sea and the southern slopes of the Balkan Mountains.
The town combines the charm of a seaside destination with shops, restaurants, local services and opportunities for coastal walks.

Nearby **Marina Dinevi** is one of the best-known yacht harbours on the Bulgarian Black Sea coast. Its waterfront setting, restaurants, cafés and pleasant surroundings make it a popular place to spend an afternoon or evening.
Beyond the lively summer season, Sveti Vlas reveals a quieter character. Peaceful coastal walks, fresh sea air and the ever-changing colours of the water create an appealing setting for those who prefer a more relaxed pace.

Shops and essential services are available in the town, although some tourist-oriented businesses and resort facilities close during the winter months.

Make the Sea Part of Your Everyday Life

Sometimes, a few days away are simply not enough.
There is something special about having the freedom to stay somewhere beautiful without counting down the days until you leave.
Imagine spending an entire month with the Black Sea outside your windows.
In summer, Infinity Sea offers easy access to the beach, long evenings on the terrace and the pleasure of living just moments from the water.
In autumn, the coastline becomes quieter, the light softens and the pace of life slows down. It is an inviting time to enjoy the sea without the energy of the peak holiday season.
In winter, the view takes on a completely different character. The shoreline is peaceful, the horizon changes with the weather and the apartment provides a welcoming place to return to after a walk by the sea.

With its **south-facing orientation, good construction quality and premium Mitsubishi heating and cooling systems**, Infinity Sea is also well suited to stays during the cooler months.
In spring, longer days and the changing coastal landscape make it a wonderful time to enjoy Sveti Vlas before the summer season begins.
Whether you stay for one month, several months or an entire season, Infinity Sea offers the opportunity to experience life beside the water rather than simply visiting it.

Monthly and Seasonal Rental Information

Infinity Sea is available for monthly and seasonal stays throughout the year, subject to availability.
Rental prices depend on the selected months, season and length of stay. This allows for flexible arrangements, including summer rentals, extended winter stays and longer visits during spring and autumn.
Pets are accepted by prior arrangement, with a higher rental rate applying to stays with pets.
Parking options and any applicable charges must be discussed and confirmed in advance.

Important accessibility information: Reaching the apartment involves climbing three floors from the building entrance. The property is therefore not suitable for guests with reduced mobility.
Deposit requirements, utility costs and other rental conditions are confirmed individually before the stay.

Infinity Sea – A Place You'll Want to Stay Longer
