Houses for sale in Burgas, Bulgaria (Vetren) – “Blossom Garden” direct from the developer, no maintenance fee

180 sq.m. · 1611.11 €/sq.m. · Apartments · Houses and villas · Multi-room · For Sale · Property Code: 4182

This is a **new residential project of modern houses with private gardens in Burgas, Bulgaria**, located in the **Vetren** district—an increasingly sought-after area for buyers who want more space and privacy while still staying within the city boundaries. Vetren is valued for its calm atmosphere and its proximity to the **Mineral Baths** area and the surrounding natural environment, making it a strong choice for families and long-term **living in Burgas.**

The concept is premium and clearly expressed in the overall vision: contemporary low-rise houses with clean architectural lines, large windows and terraces designed to bring in plenty of natural light. Here, the garden is not just an “extra”—it is a real extension of the home, created for greenery, outdoor leisure and quality time, with the comfort of your own private space.

The development includes a limited number of homes—**18 houses in total**:

- **2 larger houses** of approximately **350 sq.m** with gardens of around **800 sq.m**

- **16 houses** of approximately **180 sq.m** with gardens of around **400 sq.m**

Three house types (A, B and V)

The project offers **three house types – A, B and V**, designed around the logic of a comfortable family home. Each type follows a practical two-level concept: the main living area is planned for everyday comfort, while the private bedrooms are arranged to provide a quieter, more secluded zone. The differences between the types are in the layout details and the way the spaces are organised, allowing buyers to choose the option that best matches their lifestyle.

A practical advantage is that **each house comes with two parking spaces**, which adds real everyday convenience.
A key benefit for international buyers is that the properties are offered **directly from the developer**, with **individual payment plans**, and the project has **no maintenance fee**, keeping long-term ownership costs more predictable.
