Two-bedroom apartments for sale in Kosharitsa in a new development – Green Forest

86 sq.m. · Apartments · 2-bedroom · For Sale · Floor 1 · Bathrooms 1 · Property Code: 4207

We offer **two-bedroom apartments** for sale in Kosharitsa in the new Green Forest development – a project that combines modern architecture, quality construction and a well-thought-out concept for comfortable living close to the sea. Set in a peaceful and green area, the complex creates a sense of space, fresh air and a more natural environment, while still providing convenient access to the coastline and the resort infrastructure in the area.

This type of property is especially attractive to buyers looking for more space, a more functional layout and a home that can be used not only for holidays, but also for longer stays and more comfortable everyday living. That is why **two-bedroom apartments in Kosharitsa** are particularly appealing to families, to buyers who value a more practical internal arrangement, and to those searching for **property by the sea in Bulgaria** with modern character, comfort and long-term value. Within Green Forest, these homes are part of a project that stands out not only because of its location, but also because of its overall concept, visual identity and quality of execution.

The architectural vision of the complex is modern and distinctive. The buildings are designed in a contemporary style, with elegant facades where stone is used as a clear accent. This gives the development a more refined, durable and premium appearance, helping it stand apart from many standard coastal projects. The common areas are also finished to a high standard, creating a stylish and representative atmosphere from the moment you enter and reinforcing the impression of a carefully planned residential environment with attention to detail.

The complex is designed not simply as a group of homes, but as a complete concept focused on comfort in everyday life. A major advantage for owners is the provision of more than 100 parking spaces, which is particularly important for this type of development and adds real convenience. Heated swimming pools are also planned, further enhancing the feeling of a complete residential complex designed for relaxation, leisure and longer use throughout different seasons.

The interior concept shown in the furnished apartments also makes a strong impression. The spaces are designed in a modern and harmonious style, with a very good balance of colours, materials and functionality. In the living areas, you can see elegant kitchens with built-in appliances, clean-lined cabinetry, contemporary lighting and well-organised spaces that combine practicality and comfort. All this gives a clear idea of the standard the project is aiming for and the level of living quality it seeks to provide.

One of the strongest advantages of the **two-bedroom apartments** is the feeling of a more complete home. The bedroom areas are designed with attention to detail and with a clear sense of balance, calmness and everyday comfort. Stylish beds, functional wardrobes, modern lighting fixtures and carefully selected decorative elements create an atmosphere of a finished interior without unnecessary visual clutter. This makes the property feel suitable not only as a seasonal home, but also as a more substantial and comfortable place to stay for longer periods.

Another important benefit of the project is the inclusion of smart systems, adding modern convenience and greater control to everyday living. This is especially valuable for buyers seeking **new build property in Bulgaria** with contemporary functionality and a higher standard of comfort. Combined with the architecture, the common areas and the overall atmosphere of the complex, these features make the project particularly attractive to buyers who want more than just a newly built apartment and are looking instead for a more complete and carefully designed living environment.

Kosharitsa is a location that continues to attract buyers who value peace, greenery and more open surroundings, without giving up proximity to the sea and the amenities of the coast. This combination of tranquillity, nature and access to resort infrastructure makes **property in Kosharitsa** especially appealing to people looking for a balance between relaxation, practicality and quality new construction. It is exactly this balance that gives the area its growing appeal among buyers who want a quieter setting while remaining close to the seaside lifestyle.

The sale is **direct from the developer**, which is a key advantage for anyone looking for **new build apartments in Kosharitsa** within a project that has a clear concept, modern appearance and a well-developed residential environment. Green Forest stands out with its impressive facades, stylish common areas, heated pools, ample parking, smart features and the overall feeling of a project created with today’s buyer in mind.

If you are looking for a **two-bedroom apartment** in a new development close to the sea, Green Forest is a project well worth your attention. Contact Royal Homes for up-to-date information about the available units and professional assistance in choosing the right property.
