One-Bedroom Apartments on the Beachfront in Primorsko – New Build with Sea Views

Apartments · 1-bedroom · For Sale · Floor 3 · Bathrooms 1 · Property Code: 43091

Discover **one-bedroom apartments for sale on the beachfront in Primorsko**, within a new residential building currently under construction directly beside the beach and in the central part of the town. The location combines uninterrupted access to the coast with the convenience of shops, restaurants, services and the main amenities of Primorsko all within easy reach.

The apartments start from **69.18 sq.m** and offer a well-balanced layout with a separate bedroom, open-plan living area with kitchen space and a terrace. The generous size makes them suitable not only as a coastal home for extended stays, but also for **comfortable year-round living**.

The strongest feature of the property is its **true beachfront position**. The sandy beach lies directly in front of the building, while many of the apartments are positioned to enjoy **sea views**. Depending on the selected unit, buyers can compare different floors, orientations and positions within the building to find the combination of outlook, light and privacy that best suits their needs.

The development also benefits from a **central Primorsko location**. Restaurants, supermarkets, cafés, municipal services and everyday conveniences are all close by, creating a practical setting for buyers who want a property by the sea without giving up the advantages of being in town.

The architectural design is contemporary, with spacious terraces and a façade shaped around the coastal setting. The building is planned as a **high-quality residential development suitable for year-round use**, with several apartment types available. Garages and parking spaces can also be purchased, subject to availability.

Construction is already underway. Buying at this stage gives purchasers a wider choice of available one-bedroom apartments by floor, orientation and position within the building.

The properties are offered **direct from the developer**, with an **instalment payment plan available throughout the construction period**. This allows buyers to spread payments across the different stages of the build rather than paying the full purchase price upfront.

For anyone searching for a **new-build one-bedroom apartment in Primorsko on the beachfront**, this project brings together the features that matter most: direct access to the beach, **sea views**, a central location, modern construction and the flexibility of buying direct from the developer with staged payments.

Contact Royal Homes for current availability, floor plans, sea-view options, garages, parking spaces and detailed payment terms.
